Video Conferencing solutions

Vidyo enables anyone to enter the world of professional video conference. Whether as a service from the cloud or as a solution in your own network

» The best possible user experience and ease of use
» Brings video conferencing to any web-enabled device
» Flexible and scalable solution – customized to individual needs
» Interoperable – integration of video conferencing systems from other manufacturers

Digital discussion and audio conference solutions

Digital discussion, simultaneous translation and electronic voting system with perfect voice quality

» Speaking station for discussions
» Voting, simultaneous translating and a combination of both is available
» Reliable, fail-safe and tap-proof
» Combination of wired and wireless systems
» Plixus: high-end application for the modern conference room: Audio, Video and data transmission with one CAT5e cable

Pro Audio & Conferencing

First-class workmanship and quality are the hallmarks of ClearOne. High-quality audio conferencing systems have a distinct advantage when important issues and decisions are discussed and made

» Audio phone and video conferencing systems
» Beamforming Microphone Array
» Wireless Microphone System
» Conference Phones
» Premium Audio Processing
» Advanced Echo Cancellation
» Noise Cancellation

Room Manager / Minto

Maximum use of conference rooms and hassle-free booking

» Elegant illuminated Touchscreens show room occupancy: Red for occupied, green for vacant
» Booking and cancellation direct on the screen
» Direct Exchange communication without any additional hardware or software
» No threat to IT security

Minto – A new era of telephone conferencing

» Easy to use with laptop or smartphone with Skype or Microsoft Lync
» No ugly cords on the meeting desk
» 4 directive & patented microphones for exceptional sound quality
» Wall mount charging station included
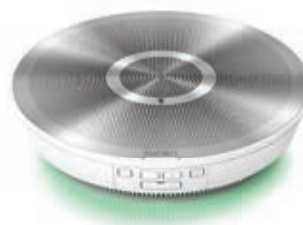

Rich Media Recording & Distribution

1-button-solution for creation of rich media presentations with video, audio and presentation recording, as well as integrated 1-button-solution for publication on the Intra- or Internet

Hardware solution for
» Mobile recording
» Stationary recording
» Streaming technology

Software solution for
» Publishing
» Search & find
» Playback with Webbrowser
» Content Management

Premium ProAudio components

Components for professional audio installations in conference rooms and for large installations

» Affordable highend speaker solutions of HK Audio
» From ceiling speaker up to large sound systems

» Class-D amplifiers with integrated DSP functionality of Lab.Gruppen

» High-quality speakers
» Digitally controllable line arrays of Pan Acoustics for use in acoustically difficult environments
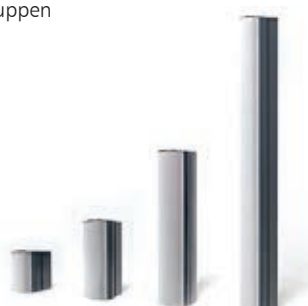

Compact audio mixing amplifier

2-channel audio mini amplifier with push buttons

» RS-232 and IR control
» Ideal for the integration in furniture, wall ducts, drop ceilings, mounting under tables and much more

Professional and cost-effective Signal Management solutions

COMM-TEC SIGNAL MANAGEMENT

COMM-TEC´s own line of professional signal management solutions.
Highest quality at a very low price

» DaisyNET: HDBaseT bus system for transmitting uncompressed digital FullHD signals over CAT-5e up to 100 m

» UP-1080p:
  12 to 2 Presentation Switcher and Scaler for meeting rooms, resolutions up to 1080p

» UP-1200 Presentation Switcher/Scaler/ Seamless Switcher:
  9 input signals with 6 different signal types can be switched to 2 parallel outputs. HDBaseT- and HDMI inputs and outputs.

Digital TV Tuner/ DVB Streaming Server

COMM-TEC VIDEO

» **ProTUNE III:** Tuner and Streaming Server to up to 13 streams to devices in local networks

IP based Signal Management

Just Add **Power**

Transmitter & Receiver to transfer HDMI, DVI and 3G-SDI signals and IR control signals over standard TCP/IP networks

» Point-to-Point
» Point-to-Multipoint
» Multipoint-to-Multipoint
» IP-based image split system
» Full HD support:
  Video and PC image in brilliant quality
» Video Wall
» KVM

Image split function for video walls up to 16 x 16 displays

Digital Signal Management –

Gefen is a recognized leader in digital audio/video connectivity

» No other manufacturer offers a wider selection of products to transmit and convert digital signals

» Switchers, Splitters, Matrix Switchers, Extenders, Converters, Scalers, cables, adaptors and tools

» Pioneer in development of HDMI Extenders and Splitters

» Best-in-class support for your daily signal management tasks

» Top quality products from technological leader

» Immediate product availability ex-stock

The Video Processing Specialists

The English manufacturer TV One develops innovative products for the broadcast and ProAV market

» Seamless Switchers and Mixers

» Scalers & Switchers

» Multi Format Converters

» Multi Window Processors

» Multi Screen Controllers

» Scan Converters

» Distribution Amplifiers and Switchers

» Universal Videowall Prozessor

Video / Graphic Processing

Visibly yours

Barco is leading manufacturer of professional and innovative solutions for Video Processing

» Seamless Switcher

» Scaler

» Scan Converter

» Up/ Down Converter

IP-Bus Devices for all Control systems

Global Caché

**Universal IP-Bus Devices for all established control systems:
AMX, Crestron, Cue, Control4***

» Can be used as a remote bus device or as a control port extension in
   the rack
» Ethernet connectivity (10/100 Mbit/s) or Wireless LAN
» Control by TCP/IP
» Existing networks can be used, no separate wiring for
   control communications required
» Control ports: RS-232 one-way and two-
   way, IR, Relais for high and low current
   connection, I/O, KNX, 1 – 10V.
» DIN rail mount

Control interfaces

**COMM-TEC
CONTROL**

» COMM-TEC gateways: KNX/ EIB, LON, DALI
» DIN rail mount
» For all established control systems

Show Control

MEDIALON

**Medialon is a leading manufacturer of solutions for the control of live events and fixed
installations. Typical applications are general assemblies, theatres, stage shows, museums, etc.**

» Manager V6:
   Software for the control of complex applications
» Showmaster Series:
   Show controller for small and
   medium sized applications
» MIP HD:
   Multimedia Interactive HD Player

Design Software for Consultants and Systems Integrators

**Stardraw.com
eye-opening software solutions**

**The Stardraw Design 7 Software produces high quality
engineering drawings and construction layouts in minutes**

» Block and pictorial schematic by drag & drop
» Panel layout by drag & drop
» Highly detailed rack layouts
» Comprehensive library of symbols and logos of the
   world's leading manufacturers
» Reads, writes and edits DWG and DXF files
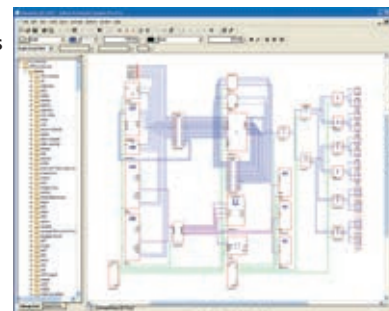

*All brand names, products, and trademarks are the property of their respective owners.

Professional Projection Screens

Top quality professional screens for commercial applications and home cinema use

» Portable tripod screens
» Manual and Electric wall and ceiling screens
» Fixed framed screens
» Tensioned electric screens
» Available from stock Uhingen

Professional Projection Screens

DA-Lite is one of the world's largest and most successful manufacturers of Front and Rear Projection Screens

» Portable Projection Screens (Tripod and Fast Fold)
» Manual and Electric wall and ceiling screens
» Rear Projection Screens
» Widest selection of proprietary projection screen fabrics on the market

Optical Front and Rear Projection Screens

Brilliant picture even in bright environments

» Front and Rear Projection Screens for use in bright light environments
» Advanced optical lens system to control the projected image for maximum impact
» Best picture quality
» Filters out ambient light for superb image quality even in bright environments
» High contrast and high reflection factor

Elegant screens of the highest quality

Projecta is the largest screen manufacturer in Europe. The company was founded in 1952 and offers highest quality screens for every application

» Unique Easy Install system for an easy installation and perfect integration of connection ports
» Dry-Erase Screen: Revolutionary combination of screen and writable Marker Board
» Favored by architects for their white frameless screens

Professional Displays

Reliable solutions designed for long term use – perfect for PoI and PoS

» Large product range of the highest quality for any application, indoor and outdoor
» Multi-display applications extremely small borders
» **The right display for your project:** Project prices on request

DLP and Phosphor Laser Projectors for meeting rooms

BARCO
Visibly yours

Precise colour and image quality at a highly competitive price, with low power consumption and low noise

- » 1-Chip-DLP™- and 3-Chip-DLP™ projectors
- » Lenses from 0.28 – 11.5:1
- » Ideal for fixed installations and rental
- » Present-P series: 4.000 - 11.000 Lumen
- » Present-C series: 3.000 - 8.000 Lumen
- » Present-M series: 8.300 Lumen
- » RLM series: bis 14.500 Lumen
- » Most quiet laser projector on the market with 6,000 lumens / 32 dB / 20,000 hours maintenance free

ClickShare – Wireless presentation system

BARCO
Visibly yours

Single-click presentation and collaboration system. ClickShare makes wireless connecting Laptops to the meeting room's video system a matter of clicking the button. It allows the other people in the meeting to participate actively

CSC-1

CSM-1

- » Wireless transmission of your laptop screen content via USB port
- » Plug & Play: Plug the ClickShare button into one USB port and click the button. Works with both Windows and Mac
- » No software installation necessary

- » Up to four participants' content can be shown simultaneously on a 4-split screen
- » ClickShare uses it's own WLAN network, no need to sign on to or configure existing WLAN networks in the building
- » iPad and Android connectivity
- » Audio and video transmission

NRC-200 – Truly focused collaboration

BARCO
Visibly yours

Barco's interactive collaboration platform for meeting & training rooms connects wireless and wired signal sources and enables easy operation, moderation and collaboration

- » Shows up to 8 signal sources simultaneously on screen (wireless and wired)
- » Moderation and auto-layout interface with touch user interface
- » seamless integration with ClickShare CSC-1
- » Integrated Audio Mixing
- » 2 x 4K outputs
- » As easy as ClickShare

Multi Touch Displays in FullHD and 4K

Newline

More than an electronic whiteboard

- » For interactive presentation and collaboration in conference rooms and class rooms
- » Resolutions: 70" and 80" in FullHD
                         84" in 4K
- » LCD Display with full LED backlight
- » Bring your own device: Wireless presentation with MirrorOP App for Android, iOS and Windows

4K Digital Signage

BrightSign®

All-in-one solution for all Digital Signage applications

» All-in-one solution with player and Authoring Software

» Multizones Mode:
zones to display multiple content sources on a single screen

» Ticker zone: Scrolling text or RSS ticker feeds

» Fail-safe: No moving parts

» User interaction/control: Touchscreen, Trackball, contact
closures, RS-232, IP

» HTML 5 support

3-LCD and DLP Projectors / Interactive Whiteboards

HITACHI
Inspire the Next

Hitachi projectors ensure that content can be presented with rich contrast and true colors

» Resolution up to WUXGA

» Lenses for all environments available

» Up to 10.000 ANSI Lumen

» Motorized zoom and lens shift

» LAN or Wi-Fi connection to control systems

Robust Whiteboard for applications in training and business environments

» Durable surface, operation via pen or with finger tipps

» Ultra-Short-Projection, no speaker shadows

» TÜV certified mounting options, capable for lightweight walls

Document cameras & PTZ cameras

Lumens™
Brilliance by Design

High-resolution document and PTZ camera range for every budget and every application

HD PTZ cameras:
high performance, low price

Mobile document camera for training purposes.
Also available in black.

For university and quality conference rooms

In-Ceiling Visualizer for inconspicuous installation

Document cameras

ELMO
SINCE 1921

The most flexible presenters available replace overhead projectors, episcopes and slide projectors in one unit with perfect picture quality

» Resolutions up to 1080p

» Vertical DIN A4 imaging

» Office Viewer for PowerPoint, Word, Excel and PDF

» Flexible and easy to operate

» Excellent price-performance ratio

COMM-TEC

ProFLECT Ceiling Projection Mirror

The ProFLECT IIi is the smart solution for secure installation of LCD/DLP projectors

» Reduced ambient noise level from the cooling fan
» Low profile for easy installation
» No access door necessary for maintenance
» Retroactive installation possible in drop ceilings
» RS-232 control

ARTHUR HOLM

State of the art display solutions for conference rooms

Arthur Holm offers a wide and flexible product range to cover the most demanding technology board room's needs, making it "invisible" when not in use

» High-quality high-end appliances and elegantly designed holders for perfect integration into sophisticated architecture
» Unique design and unmatched quality
» Extensive range of products available in different sizes, display types and surface designs
» Optional expandability with modules such as touch screen, mouse, keyboard or speakers

BACH MANN

Connection solutions for office, conference and training rooms

Systems and modules for individual access to power and data supply

» Modular table interconnect boxes in different sizes and shapes
» 19" power supply components with surge protection, stand-alone and master / slave, IP capable PDUs for flexible use i.e. with Middle Atlantic Racks
» Floor box solutions for modern office environments

CHIEF

Professional Display and Projector Mounting Solutions

Universal and customized mounting solutions for professional applications in commercial and residential environments

» Best quality and functionality
» For all application areas and space requirements
» Quick installation
» Easy assembly and micro adjustable installation
» Ultraflat Thinstall systems
» Prevalent model range available ex-stock

19"- Racks and Enclosures

Middle Atlantic Products offer innovative solutions for 19'' racks and enclosures for a wide variety of residential and commercial applications

» Most racks extend out and rotate for easy access and installation
» Sliding Rail System racks
» Custom design shelf racks for consumer devices
» Time, labor and cost saving USPs
» Thermal management
» Cable management

frame to furniture C5 Sideboard– Technology discreetly integrated, perfectly installed with active ventilation

Projector lifts

Weibel projector lifts in Swiss high-precision quality
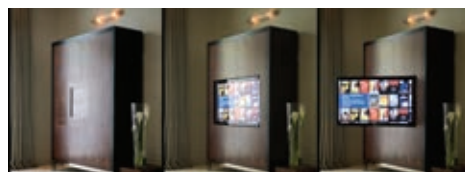

» Minimal ceiling depth needed
» Patented, extremely quiet spindle drive
» Five years warranty
» Models for professional and residential use

Motor driven display mounts

Future Automation is the market leader for high-end installation

» Seamless or invisible integration of your media technology
» Lift systems for flat panels, pivoting, swivelling, floor lifts
» Motor-driven wall mounts, pivoting, swivelling, sloping or manual

Brackets for Displays, Projectors and Digital Signage

With a focus on function and aesthetics SMS is one of the world's leading suppliers of high quality support systems for flat screens and projectors

» Wall and ceiling mounts, floor and table stands
» Whiteboard mounts
» Vandal-proof digital signage housing for public installations
» Common model range available from stock Uhingen

Six good reasons ...

... why COMM-TEC is the right partner for you

A clear distribution concept

COMM-TEC adheres strictly to the concept of being a true distributor, i.e. offering products, solutions, information, technical support and competent help to professional dealers and systems integrators ONLY.

Innovative technologies

COMM-TEC puts the products and technologies of tomorrow at your disposal today!

A market-oriented product range

COMM-TEC negotiates for you with the world leading manufacturers to gain access to the market's most sought-after technologies. Compatibility with the other products in our range is guaranteed from the start.

Skilled support

COMM-TEC supports you with an extensive offer of services designed with one goal in mind: to help you grow your business. Competent technical support, project planning assistance, programming help and up-to-date information.

Support for planners

COMM-TEC is in constant contact with consultants and architects to inform, advise and support them in their designs with the latest information, data, application examples and architectural specifications.

Prompt and reliable delivery and post-sales service

COMM-TEC's warehouse in the heart of Europe provides for quick availability, short lead times, reliability and quality of service.

„Think Solutions"

A Philosophy

COMM-TEC, however, has striven to create an awareness of thinking and acting in solutions and, as a result, offer systems. The spirit of „Think Solutions" is found throughout all of COMM-TEC not only as an expression of our distribution and product philosophy, but also within our teamwork environment and our dealings with customers and suppliers.

Our Information System

The latest COMM-TEC information

Do you wish to be kept up to date on all the latest news? Please send us an email at sales@comm-tec.de with your name, company, email and post address. We will include you in our informational communication data base.
Twitter followers are regularly provided with interesting news such as new products, data sheets, technologies, trade shows, trainings, webinars and industry news.

COMM-TEC on the WWW

Please find all the latest news and more information about our company, your contact at COMM-TEC and the product range on our website under www.comm-tec.de. Additionally, product descriptions, data sheets, technical information, architectural specifications, software and a lot more are all available for viewing and downloading from the site.

Webinars at COMM-TEC

Invest 45 minutes of your time comfortably at your desk to get important know-how
Make use of our regular webinars to keep you technologically up to date about new products and solutions. Your investment is limited to a time frame of 45 minutes. You need a PC with Internet access, Adobe Flash Player and a speaker or earphones
